SimpleSoundBus User Guide

File Organization:

- Place SFX files in audio/se/

- Organize in subdirectories if needed.

- Do NOT include audio/se/ or the file extension.

Examples:

- audio/se/attack.ogg -> "attack"

- audio/se/subfolder/attack.ogg -> "subfolder/attack"

- audio/se/ui/buttons/click.ogg -> "ui/buttons/click"

Inline Text Escape Code:

\sfx[FileName]

\sfx[FileName,Volume,Pitch]

Plugin Command:

PlaySFX FileName Volume Pitch

Example: PlaySFX subfolder/attack 80 120

Script API:

SimpleSoundBus.play("FileName", Volume, Pitch)

SimpleSoundBus.stopAll()

Bus Behavior:

- Supports overlapping sounds up to Max Voices (plugin parameter).

- When full, the oldest sound is replaced.

- Allows clean layering without audio overload.
